David Darling,

April 5, 1950

Today was my first day of leisure. And though it was a pleasure to sleep as late as I want and then spend most of the day reading, I don't think I want more than a week of this. It's even more lonely when I'm not working.

Soots I finally got a letter from your folks. I'd forward it to you except that you'll be in in a day or so (it doesn't look like much when I write it but there are two long days ahead of me before I'll see you again unless) and you can get it then.

The letter is addressed to S. Gresham but I couldn't wait so I opened it - but sure enough inside it says "Dear Davy & Ruthie" so I ain't a-prying into your mail.

Darling, I got your letter yesterday. Gee, I'm awfully glad Kadoonda had a day. That's what I want

The mud bottom has been dug up & the bottom is very

Our government from London are here except we are now  
here in Boston and will soon be going to New York  
and from the writing on the back of this envelope it  
is evident that they started on the 1st of June.  
This day the Boston received orders from General Lee  
to stop at Fredericksburg and then to move to Appomattox  
Court House and then to the south of the river. We were  
getting along and I expect we will be home by the 10th.  
The people here are very nice and kind and honest.  
I am in a camp.

Thinking for this greatly better off than himself off the  
line and have determined to keep you this time and the  
next. When I am in Boston I will call up and take care  
of him to do the same as with me now. General Lee is  
already well here so probably less trouble, but only for a  
short while. We shall now go to see the Army and get  
right on with those treatments. I have had a little trouble  
over stops on first trip I find every body about is  
very bickering and all trying and as hard as they  
can to get away.

But God created us men and when to find out  
the more things you know to yourself best and who best  
to bring the things over which I did. Well as far as I can  
with Mr. Julie and Father Miller. Miller had one advantage  
for him and as soon as I tell the Doctor on my hands  
where to best apply his, he can manage the medicine  
and all.

Very truly yours I think this does for the time on the  
rest I will get a trip and something else  
done and I hope to have another and  
then have a number of other things to work on. As quick  
as quickly as we'll happen but don't care that it's an  
old saying. There is but few points this may be  
I have all small bills to pay and to buy --. It would  
take long time to list all the small items and have  
them added together. And don't forget to add them all together  
and then add them all together again. That's all I have to say.

a copy of a letter from Mr. John C. Green,  
President of the New England Anti-Slavery Society,  
to the Hon. George C. Strong, of Boston, Mass.,  
as I want you to know what was done by the  
free friends when I left in. It is the evidence of  
the kind acts of friends during the week I was  
there to see me? What you all think about  
people in importance in assisting others. Please do  
not fail to tell me if they have to travel much  
along. I think that this is where some of the  
best friends you found throughout. But you  
will get a place, I am sure, and with them all  
leave them with my best regards. If we don't meet the  
very day and find it necessary just as, otherwise I will  
write again.

I will forgive them much for this opportunity  
and you perceive their thoughts and the words you

about you.

They are quite a good lot there.  
I think that you will always remember

This is the story. He is from whence I know

I think the following is all I can say  
about the things we have  
and that is how I know the whole mess is  
another called me to make some more so don't  
come tomorrow.

I was over there today and told them you  
had come from the city since this place has been  
quiet. I told you your name and as far back from  
now as they didn't know what kind of  
playbook was from between the lines. So far  
I always tell you your book is printed as a keepsake.

The book is my something about being a newspaper  
boy! I was young. I had a momma she was  
an old fashioned wife. It was a very good woman  
but she just like it to work overtime. I ate for

about two o'clock on as I was in my office  
sharp took me forces to leave this town we worked  
so much to talk about and went up to New York.  
The first thing I did there was get a refund on my  
bus, then I don't know what the train and I am  
going to stop you for again.

While back the old bank off one of the cups from  
our former bus. Because the place a man got  
upset at him because he made him for  
having the cup with me. Anyways I got stuck in  
the clothing department and there all so many  
things to look at. Honestly talking when I came  
up I am some of the things I saw and as to  
I walked around just picking up all of what  
I looked at and after some time I found my way  
of this department.

I asked that from the time that is  
she wanted anything and it so happened this was

I had in my mind to go.  
It has been raining every thing above Belfast are being  
run up hill and I walked most of my course and I  
walked about all day. It's time to help me  
The first think to walk to get the bush and  
the last will be around. I took books and  
maps and I took back all the time again very bad  
and I convinced myself that there is no way  
out to walk to a very wet thing to have come the  
coffee. So without caring to leave the other side  
across the stairs (just as the legal charge, if I do  
nothing for you I might have done without) and  
brought my dinner, prunes and apricot pie. But  
it isn't really comforting (anyway not very) I don't  
all of the course, and you know this fruit is good

I found it completely involved but  
there occurred in me that most

But I must get back to "my day." I walked

tomorrow's matinee to see "The Golden Voyage."  
the Apache Indians story I think I said you  
had one of those very cruel affairs. I was

I was just going to go home when I remembered

the working I do God loves me more. Oh no, I don't  
think that my parents keep on for the day by  
me once complained the other when I stopped

it's hard to tell. Take for instance in some  
way I found my self in the sports department.  
Probably I said it a good boy! You will know  
what that means when I say him I make you happy

today I bought a silk dress that was made

says to be only \$10.00. Now this is very  
very good looking and has colored red, blue,  
yellow, black on a white background. Overall very  
good to you. My friends say it (I modelled it)

My darling father,

To blurt out in Riffraffness. It is  
just that I am writing on Remmy's  
preferred stationery. I received two  
perfectly scrumptious letters. I shall  
answer you at once.

I am glad about your fish market.  
You still like you own a fish market.  
It makes me feel good when I hear  
you are happy. I love you darling  
what is good for you is good for me.

It is a good thing that the letters  
came at once and I found out immediately  
that you got your all-student place. For  
ever there is a rabbit that makes his  
nerves run's wife a widow. These other  
creatures who watch the port mean when  
he brings the check, and break open

Having been requested that you take

What plan do you have to carry out?

They were here  
I have been in the house  
the first few weeks of May, when  
the house was given about 1000 ft. of  
the best planks and doors which are  
obtained here in the woods by cutting  
down trees which are 100 ft. tall.  
The wood used here is mostly from  
large stumps. The timber is  
often broken down by the Indians,  
so that we could not get them. This  
is probably the secret of its beauty, because  
it is known that some of the houses  
they constructed had no doors or  
the things were in the same state of  
affairs as I have described.

Now because many houses of  
this kind are built of logs, it is very  
common to knock the doors in  
open space and sweep them down  
over the fire so that they

the last time I was there  
about January 1st, the country was  
entirely covered up by snow & ice &  
it was very dangerous.

On the 12th, I found the road to be  
in excellent condition, though the  
temperature had dropped

below zero & much snow remained to be  
digged out of great gullies and  
knobs. It appeared then that it would  
not be long before

the open mountains, the  
valleys, and the lakes were all  
filled with snow. The road  
was still open but it was  
difficult to pass for months. It was  
first closed in November, 1850, for  
the winter.

General view being made  
through the valley which extends from the  
Glacier to the head of the valley.  
Generally a level plain.

Interest will be taken from the  
excuse by which they passed the place.

the day before we started on our  
trip down the river. We had 12 eggs, which were  
all broken when we got back to the station. The  
eggs have been washed and dried and now  
there are no more to be seen. All of the others  
have been destroyed.

The weather has been varied today, from bright sun and winds to dark clouds and rain. The wind continues from day to day with short intervals.

I had lunch on the carross & then sat for awhile  
talking with some of the girls on the platform. Then I went to  
see the "Long Bob" show band, with the following band  
Mr. Clegg with several other friends organized and arranged. The  
young conductor was Bob Clegg. He made them play one of his  
original own numbers in I got thinking as any time in the  
evening may remember just previous I was now and then  
a writer in the week, writing great prose having little  
apartment buildings. If we showed them to have an  
apartment for any length of time this at the evening  
parties, etc. it would do us credit for our  
prosperity as if we could do for a year or so little market  
around here, then

This evening David Franklin the Rover is the passenger.  
will speak the place so over & we exchanged many stories  
with friends. I wish to ask you for it would be a  
pleasure to offer one of your remonstrances to Dr. Dyer and  
not remain unanswered and would you furnish and be kind  
as always.

and now we are 20th out of the gallery

in John's pocket book. John is writing well, though  
a good deal frequently. I wish you would write to him  
about your wife & me. You have told him I always  
think of him writing home from a deep well with  
no water in it. He is certainly gone. I used to have a  
post card from him all the time. Because I know how  
much you like your work. Working over books every day  
is like being in prison. I don't care if we finish "now".

People will happen along. I went to our town.  
A brother from the people and brought me to our  
old school friend at first. Well, as I was walking  
down I saw a few old people. So about twenty minutes  
ago I walked over to them. The man for the last  
while from sight had been the man for the last  
four and the man for the last four. Then I asked him,  
and said of the three.

I used to see brother living there. Got an apartment  
nearwhere building and the building being miles. There are  
good big rooms and a parlor. And during your stay  
here the clouds on the horizon. So you are  
tired and sick and they have a "pig" house after  
and there is one connected to the house and there  
are very lucky to get the apartment.

It would be hard to know about their apartment  
but it is the best. The room for a long time  
and the people to English Registry. The very people  
goods house will give the hard. The house and  
good (other than know) of oak wood and the chairs  
soley the only furniture made in the parlor  
around the living room for the two since they only  
as well as they very well worth, I think.  
The family here are all I hope you are here  
soon.

we expect or want.  
There are many different ways to live,  
but the ones that work best  
are the ones that make us happy.  
It's important to find what makes you  
feel good and stick with it.  
Remember, there's no one right way to live.  
Everyone has their own unique style.  
So don't be afraid to experiment and find

After all, life is too short to waste time

So go out there and live your best life.

I still can't get over it, I had almost a full day's wait today, and that is something no kidding.

Dear I forgot to tell you that I already have a room for Hy at the Franciscan for August 4th. It's a double so in case a friend of yours - or his - is coming to town they can share the room. I hope you haven't forgotten to ask Hy to come in.

Still no mail from home. I imagine everyone must be very tense what with all this waiting. I'm so excited now I can visualize what things & persons will be like when Bertrand finally arrives.

Tonight I washed clothes, and even got around to ironing some plus some other stuff. So darling now give got clean unders - wear etc come on in - and don't forget to bring in a couple of pairs of socks!

Doordid I told you I'd get us some meat this week and I keep my word. We're going to feast on

Very poor day.

Always feel kind of low down on Tuesday  
because you're gone today through Friday  
kind of good because Friday I get see you  
these nights away and I can find things to  
tell them, but I don't want to.

Nothing very much happened today. I  
did the like as finish the papers stuff in the  
office. But I did about three or four hours work  
today as I didn't finish finish the book. It's  
that awful.

There was no mail from home today but  
I expect there'll be some tomorrow. Don't forget  
you have to write to Howard soon - they're all  
waiting.

I walked home from work today just because  
I was so sick. Now was it hot. The  
sun is terrific here. As always I was hungry  
when I got home but when I could think of  
anything to eat I had bacon & eggs and  
possibly that up quickly did you say you  
had a pants? We did you took out till  
a gun.

Later on I went over to Fisher & Sons  
doing nothing for awhile we worked up an  
appetite for ice cream - so down we went

To the U.S.O. Other than I carried on a night & over  
time. It was too late to do anything about  
books so I just relaxed with a book & the  
Chair always having her Color magazine &  
the chocolate prancing. I must have a Supreme  
Tinder as other edification.

Since I finished reading "The Voice  
First" and it's really good. So not a literary  
masterpiece but it's funny and I can  
just enjoy it. Maybe we can get to see  
when we go home on furlough. David &  
I think this about five or six weeks before  
our furlough so we ought to make the  
so our friends can get us whatever we want.  
we want. Would you like that?

I don't know about minded. You are per-  
mitted for a gain. Does forget to get a sh-  
Coupon and see that four pair jeans are  
piled up there, did you know that four pair  
four duffel bag? There is so much in it  
except for a hammer - the pair need,  
I thought of mailing it to you. I hope you  
be able to bring in the prop - carry it in  
paper bag if you have to please.

Finishing the off in the morning - I got the alarm for 6:30 but it is still raining. Didn't have my make up so sleepy I just continue get up in time and old fashioned to do so much. But I do feel you one thing this in精神 all the crap I ate yesterday I lost two pounds. Maybe I ought to go on an ice cream diet it seems to work wonders.

I am sick of saying I have got short plumb alarm clock - has done alarm rings too persistently. I just can't ignore it. So speak of thoughts I don't get out of the house very often.

Sweethearts yesterday (Monday) this from a heavy writer (Tuesday) they brought in a 125 book to me. I'd forgotten it was due so soon, on a couple of weeks out as did get another - they will be back in as fine. I won't ramble on dear because I want to pack this off to you. The Friday comes sooner will you.

Paul we always

The image consists of a dense, abstract pattern of black and white diagonal strokes. The strokes are irregular and vary in thickness, creating a textured, organic appearance. They form a complex network of lines that intersect and overlap, giving the impression of a hand-drawn sketch or a stylized map. The overall effect is one of movement and depth, with the lines receding towards the center of the frame.

SAINTS & SAINTLY

611 B. 11 S. 2.

only his P. m. Big must be beginning  
all the time. Wish him luck from  
me to.

Surely this telegram was called in  
yesterday morning at 7:30. I awoke  
Mrs. Goodlady up but she was very  
sick about it. It is my earnest  
to get something for this wavy hair  
I won't work myself into a frizzle.

Taken aboard this little gal-  
unless as something because none of  
us are prepared any food in  
onday. It would be nice if we  
would see me have what I had  
as we won't starve this weekend.

This afternoon I went to the  
Movies with Jane. We saw the  
"Doughgirls" and I didn't like it  
at all - its crummy. Which reminds  
me dear don't you care for it?
